Stakeholder Engagement Survey

Survey conducted by C-lever.org and Social Value Belgium

This Stakeholder Engagement Survey is one of the initial initiatives of the “Putting Stakeholders in the Centre” - Peer Learning Partnership (PLP) formally initiated on 20th May 2021 during the launching event hosted by the OECD Global Action.

This survey shall contribute to improved understanding of (existing and desired) concepts, practices, and policies of stakeholder engagement (SE) in impact measurement and management (IMM) by different types of organisations. The results of the survey will be used for developing capacity building and policy solutions to address barriers and opportunities for effective stakeholders’ engagement.

Ultimately our peer learning partnership is about leveraging stakeholders’ voices for improving social value generation, within the social and solidarity economy ecosystem and beyond, while enhancing organizations’ accountability to their (underrepresented) stakeholders. You are invited to contribute to this cause.

More information about this partnership (PLP) is available here: [SSE PLP Detail — Social Value US](#)

Please take the survey now! Your contribution is **very valuable**, and it will only take you 15 minutes.

You can access the survey through these links:
